AV-LC24C-TE

Before You Install DECforms Version 1.3

This package contains the DECforms software, installation instructions, and user documentation. (The DECforms software is also referred to simply as DECforms.)

Contents of This Kit

- Bill of Materials

  Please read the Bill of Materials enclosed in the transparent plastic envelope. Check to see that all items listed there are in your kit. If any items are missing, contact your Digital representative.

- Media

  If you have ordered media, you will find the media and the *DECforms Installation Guide* (Order No. AA-LC23D-TE) in this kit. This manual supplies the information you need to install DECforms on a VMS system.

- Documentation

  If you have ordered a full development kit or a documentation-only kit, you will receive a DECforms documentation set, which includes the following manuals:

  DECforms Guide to Developing Forms (Order No. AA-LC17A-TE)
  DECforms Guide to Programming (Order No. AA-LC20A-TE)
  DECforms Reference Manual (Order No. AA-LC19B-TE)
  DECforms Guide to Converting VAX TDMS Applications (Order No. AA-LC22B-TE)
  DECforms Guide to Converting VAX FMS Applications (Order No. AA-LC21A-TE)

  Each manual contains two Reader's Comments forms at the back so that you can provide us with your comments on the quality of our documentation and so that you can report any errors you may find.

- Software Product Description (SPD)

  The SPD provides an overview of the DECforms kit and its features.

- Software Performance Report (SPR)

  Use this form to report any problems with DECforms (provided you have purchased warranty services).

Installation and Release Notes Information

You should read the *DECforms Installation Guide* before installing DECforms. You must have Version 5.0 or higher of VMS installed on your system before you can install DECforms Version 1.3.

The release notes for DECforms contain information such as restrictions, known problems, and documentation errors or additions. You can read the release notes before installing DECforms by invoking VMSINSTAL and following the instructions in the *DECforms Installation Guide*. You can locate the release notes after installing DECforms by entering the following DCL command:

```
$ HELP FORMS RELEASE_NOTES Return
```
