VAX DECgraph Version 1.6 Cover Letter

Order No.: AV-PE6NA-TE

Enclosed is the VAX DECgraph V1.6 Kit. The kit includes VAX DECgraph V1.6 software on magnetic media and material for updating your DECgraph V1.5 documentation.

Version 1.6 contains fixes to problems found in Version 1.5, support for VT330/VT340 terminals, and limited DECwindows DECterm terminal emulator support. The VAX/VMS License Management Facility is used with VAX DECgraph V1.6. All new features and resolved problems are described in the *VAX DECgraph Release Notes*.

The kit contains the following items:

- This cover letter
- The VAX DECgraph V1.6 installation media
- *VAX DECgraph Installation Guide*
- *VAX DECgraph Release Notes*
- VAX DECgraph Service Update Product Authorization Key

To install VAX DECgraph, read the release notes and then follow the procedure in the *VAX DECgraph Installation Guide*.
