DEComni/VMS Version 1.1 Cover Letter

AV–PBNQB–TE

Dear DEComni/VMS Customer:

The DEComni/VMS development team would like to thank you for purchasing DEComni/VMS Version 1.1.

Enclosed is the DEComni/VMS Version 1.1 kit. It consists of the appropriate software distribution media (including online release notes and documentation) and hardcopy software documentation. Please read the DEComni/VMS installation instructions before installing the product.

DEComni/VMS Version 1.1 provides you with online release notes that contain information about restrictions, incompatibilities, and changes to documentation. See the *DEComni/VMS Software Installation Guide* on how to access and read these release notes.

DECosap/VMS Requirement

DECosap/VMS Version 1.0 requires you use DEComni/VMS Version 1.0; please do not install DEComni/VMS Version 1.1 with DECosap/VMS Version 1.0.

DEComni/VMS Version 1.1 Documentation

DEComni/VMS now provides you with two sets of documentation:

- An online documentation set in both PostScript and ASCII file format that you can access by following instructions given in the DEComni/VMS installation procedure.

  The online documentation set includes the following:

  — *DEComni/VMS Software Installation Manual*

  — *DEComni/VMS Application Programmer's Guide*

  — *DEComni/VMS Guide to Using OmniView*

  — *DEComni/VMS Network Manager's Guide*

- A hardcopy documentation set that consists of two reference cards and a pocket guide and is packaged with the DEComni/VMS kit.

  The hardcopy documentation set includes the following:

  — *DEComni/VMS Installation Card*

  — *DEComni/VMS OmniView Reference Card*

  — *DEComni/VMS Pocket Guide*

Regards,

DEComni/VMS Product Management
