VAX DECslide Version 1.4 Cover Letter

Order No.: AV-PE6MA-TE

Enclosed is the VAX DECslide V1.4 Kit. The kit includes VAX DECslide V1.4 software on magnetic media and material for updating your DECslide V1.3 documentation.

Version 1.4 contains fixes to problems found in Version 1.3, support for VT330/VT340 terminals, and limited DECwindows DECterm terminal emulator support. The VAX/VMS License Management Facility is used with VAX DECslide V1.4. All new features and resolved problems are described in the *VAX DECslide Release Notes*.

The kit contains the following items:

- This cover letter
- The VAX DECslide V1.4 installation media
- *VAX DECslide Installation Guide*
- *VAX DECslide Release Notes*
- VAX DECslide Service Update Product Authorization Key

To install VAX DECgraph, read the release notes and then follow the procedure in the *VAX DECslide Installation Guide*.
