1

US Market Installation

1.1 Introduction

This document is for the person responsible for installing ALL-IN-1. It describes information specific to your ALL-IN-1 Version 2.4 US market component.

This document does not, by itself, describe the installation of your ALL-IN-1 Version 2.4 US market component. The installation of this component is carried out as part of the main ALL-IN-1 Version 2.4 installation procedure (see the *ALL-IN-1 Installation Guide Part 1 Base Installation*). The *ALL-IN-1 Installation Guide Part 1 Base Installation* refers to information contained in this document.

1.1.1 Distribution Media

Your ALL-IN-1 Version 2.4 market kit contains the US market component of the ALL-IN-1 Version 2.4 kit and is on two pieces of media. This software for the ALL-IN-1 Version 2.4 US market kit is on the distribution media labeled:

ALL-IN-1 V2.4 US BIN media_type
MARKET COMPONENT
(c) 1989 Digital Equipment Corp.

where *media_type* is 16MT9 for tape and TK50 for a TK50 cartridge.

The *Release Notes Part 2 US market* is on the distribution media labeled:

ALL-IN-1 V2.4 US BIN media_type
RELEASE NOTES PART 2
(c) 1989 Digital Equipment Corp.

The US market component contains:

```
Saveset             Description

A1CUS024.A          ALL-IN-1 Version 2.4 US market kit
A1CUS024.B          ALL-IN-1 Version 2.4 US market kit

A1CRUS024.A         ALL-IN-1 Release Notes Part 2 US Market
```

A list of files on the ALL-IN-1 Version 2.4 US Market kit is given in Appendix A of this part.

1.1.2 Useful Information for the US Market Component

Table 1–1 lists useful information for the US market component of ALL-IN-1 Version 2.4.

Table 1–1 Useful Information for the US Market Component

Information	Value	Use
Product name	A1CUS024	Installation and naming of savesets
Market name	US	Media labeling
Market code	US	During installation
Market component kit size (blocks)	1,200	Installation
Disk space used permanently by the market files (blocks)	800	Installation
ALL-IN-1 date format:		
Alphanumeric	DD-MMM-YYYY	ALL-IN-1
Numeric	MM/DD/YY	ALL-IN-1
WPS-PLUS date format	dd-mmm-yyyy	WPS-PLUS
WPS-PLUS time separator	colon (:)	WPS-PLUS
Currency format:		
Currency symbol	$	ALL-IN-1
Decimal separator	dot (.)	ALL-IN-1
Thousand separator	comma (,)	ALL-IN-1
Page size	66	Printer settings

1.1.3 Disk Space Required During Installation

The disk space required during installation depends on whether you are installing ALL-IN-1 on the system disk only, or across several disks (see Table 1–2).

Table 1–2 Disk Space Required on the System Disk During Installation

System disk only	Multiple disks
50,000 + nn	15,000†

† This value does not include any ALL-IN-1 areas that you may want to place on the system disk. See Section 1.1.4 for the disk space require by each ALL-IN-1 area.

nn The space required for the language files is given in the *ALL-IN-1 Installation Guide Part 2 Language Installation* for the language you are installing.

If you are upgrading from ALL-IN-1 Version 2.3 or ALL-IN-1 STARTER Version 1.0, or are updating from ALL-IN-1 STARTER Version 2.4, the disk space required on the disk for each ALL-IN-1 area is shown in Table 1–3.

Table 1–3 Disk Space Required for Each ALL-IN-1 Area During Installation

Area	Disk Space
ALL-IN-1 manager's account†	100
Shared library files	11,500
Shared data files	4,000
Language files	nn
Mail area SDAF file	1,000
Shared directories	n x 100

+ This figure includes the [.IVPUSER], [.MGR], [.POSTMASTE], [.TRANSFER_INCOMING] and [.TRANSFER_OUTGOING] directories.

nn The space required for the language files is given in the *ALL-IN-1 Installation Guide Part 2 Language Installation* for the language you are installing.

1.1.4 Disk Space Used Permanently by ALL-IN-1

The disk space permanently used by ALL-IN-1 Version 2.4 depends on whether or not you incorporate WPS-PLUS. Table 1–4 shows the disk space requirements for each area of ALL-IN-1. The disk space permanently used by the language files is given in the *ALL-IN-1 Installation Guide Part 2 Language Installation* for the language you are installing.

To ease the management of ALL-IN-1 you can choose to split ALL-IN-1 across several disks, with an ALL-IN-1 area on each disk. The ALL-IN-1 areas are:

- ALL-IN-1 manager's account. This account includes the IVPUSER, MGR, POSTMASTE, TRANSFER_INCOMING and TRANSFER_OUTGOING directories.
- Shared library files.
- Shared data files.
- Language files.
- Mail area SDAF file OA$SHARE:OA$DAF_y.DAT, where y is a letter from A to E. Mail area E is created during a new installation.
- Shared directories OA$SHARynnnn, where nnnn is a number in the range 1 to 9999.

An example of the directory structure for a multiple-disk ALL-IN-1 system is given in Appendix C of the *ALL-IN-1 Installation Guide Part 1 Base Installation*.

1.1.4.1 New Installation

The permanent disk space required by each ALL-IN-1 area is shown in Table 1–4. If you want more than one area on the same disk, the disk space required is the total for those areas.

Table 1–4 Disk Space Required for Each ALL-IN-1 Area

ALL-IN-1 Area	Disk Space	
	With WPS-PLUS	Without WPS-PLUS
ALL-IN-1 manager's account†	1,000	900
Shared library files	31,200	26,500
Shared data files	3,000	3,000
Language files	nn	nn
Mail area SDAF file*	1,000	1,000
Shared directories‡	n x 1000	n x 1000
System disk files	4,000 + nn	3,500 + nn

† This figure includes the [.IVPUSER], [.MGR], [.POSTMASTE], [.TRANSFER_INCOMING] and [.TRANSFER_OUTGOING] directories.

‡ n is the number of shared directories specified during the installation.

\+ This is the minimum amount of free space required on the disk that is to contain the SDAF file, even though the size of the SDAF file may only be a few blocks, after ALL-IN-1 Version 2.3 is installed.

nn The space required for the language files is given in the *ALL-IN-1 Installation Guide Part 2 Language Installation* for the language you are installing.

1.1.4.2 Upgrade and Update Installations

If you are performing an upgrade or update installation, and you choose to purge files during the installation, the additional disk space required for each area is given in Table 1–5.

Table 1–5 Disk Space Required for Each ALL-IN-1 Area if Purged

Area	Disk Space		
	Upgrade from ALL-IN-1 V2.3	Upgrade from ALL-IN-1 STARTER V1.0	Update from ALL-IN-1 STARTER V2.4
ALL-IN-1 manager's account†	100	100	100
Shared library files	3,500	7,800	7,800
Shared data files	100	100	100
Language files	nn	nn	nn
Mail area SDAF file			
Shared directories			
System disk files	1,500 + nn	1,000 + nn	1,000 + nn

\+ This figure includes the [.IVPUSER], [.MGR], [.POSTMASTE], [.TRANSFER_INCOMING] and [.TRANSFER_OUTGOING] directories.

nn The space required for the language files is given in the *ALL-IN-1 Installation Guide Part 2 Language Installation* for the language you are installing.

If you are performing an upgrade or update installation, and you choose not to purge files during the installation, the additional disk space required for each area is given in Table 1–6.

Table 1–6 Disk Space Required for Each Area if Not Purged

Area	Disk Space		
	Upgrade from ALL-IN-1 V2.3	Upgrade from ALL-IN-1 STARTER V1.0	Update from ALL-IN-1 STARTER V2.4
ALL-IN-1 manager's account†	300	300	300
Shared library files	30,900	35,200	35,200
Shared data files	100	100	100
Language files	nn	nn	nn
Mail area SDAF file			
Shared directories			
System disk files	5,000 + nn	4,500 + nn	4,500 + nn

† This figure includes the [.IVPUSER], [.MGR], [.POSTMASTE], [.TRANSFER_INCOMING] and [.TRANSFER_OUTGOING] directories.

nn The space required for the language files is given in the *ALL-IN-1 Installation Guide Part 2 Language Installation* for the language you are installing.

1.1.5 Keyboard Support

Your kit contains a Keyboard Reference Card and a Keyboard Diagram for the American LK201 and VT100 keyboards.

The following keyboard mapping tables are supplied with your ALL-IN-1 Version 2.4 kit:

```
FRENCH_A1_LK201-AA.A1KMT        FRENCH_WPS_LK201-AA.A1KMT
FRENCH_A1_LK201-AP.A1KMT        FRENCH_WPS_LK201-AP.A1KMT
FRENCH_A1_LK201-BA.A1KMT        FRENCH_WPS_LK201-BA.A1KMT
FRENCH_A1_LK201_BP.A1KMT        FRENCH_WPS_LK201-BP.A1KMT
FRENCH_A1_LK201-NA.A1KMT        FRENCH_WPS_LK201-NA.A1KMT
FRENCH_A1_LK250-AA.A1KMT        FRENCH_WPS_LK250-AA.A1KMT
FRENCH_A1_LK250-AP.A1KMT        FRENCH_WPS_LK250-AP.A1KMT

GERMAN_A1_LK201-AG.A1KMT        GERMAN_WPS_LK201-AG.A1KMT
GERMAN_A1_LK201-BA.A1KMT        GERMAN_WPS_LK201-BG.A1KMT
GERMAN_A1_LK201-BG.A1KMT        GERMAN_WPS_LK201-BA.A1KMT
GERMAN_A1_LK250-AG.A1KMT        GERMAN_WPS_LK250-AG.A1KMT

SPANISH_A1_LK201-AA.A1KMT       SPANISH_WPS_LK201-AA.A1KMT
SPANISH_A1_LK201-BA.A1KMT       SPANISH_WPS_LK201-BA.A1KMT
SPANISH_A1_LK201-BS.A1KMT       SPANISH_WPS_LK201-BS.A1KMT
SPANISH_A1_LK201-LS.A1KMT       SPANISH_WPS_LK201-LS.A1KMT
SPANISH_A1_LK250-AS.A1KMT       SPANISH_WPS_LK250-AS.A1KMT
```

These mapping tables are invoked by entering:

```
$ ALLIN1/KEYBOARD=keyboard_mapping
```

where keyboard_mapping is the identity of the required keyboard. A list of these keywords is held in OA$DATA_SHARE:OA$KEYBOARDS.DAT (see the *ALL-IN-1 Management Guide*).

1.1.6 Modems Supported

The autodial feature of the modems listed in Table 1–7 is supported. You can disable this feature by customizing OAMARKET.BLI.

Note *You must use the Customization Management subsystem to customize ALL-IN-1.*

Table 1–7 Autodial Modems Supported by ALL-IN-1

Manufacturer	Model Number
Digital	DF02-AC
Digital	DF03-AC
Digital	DF100 series
Case	440/12
Racal-Milgo	MPS1222-AD
Racal-Milgo	MPS1222 with Racal-Vadic VA811

In addition, all Bell 212A/103 compatible modems, and modems meeting CCITT V21 and V22 recommendations, are supported as manual-dial modems.

Refer to the manuals provided with the modems for information on installing and using modems.

A

Files on the ALL-IN-1 Version 2.4 US Market kit

This appendix contains a list of the files on the ALL-IN-1 Version 2.4 US Market kit.

Note **.ELE files are used by the installation procedure to transfer the files to the correct place. These files are removed when the installation is completed.*

Each saveset has a unique kit revision identifier, <revision>, given by the file A102COUNTRYsaveset.REV_<revision> (for example, A1024COUNTRYA.REV_A), where saveset is the saveset identity (A or B).

The files in each saveset are listed in the next section.
