ALL-IN-1 STARTER V2.4

Consolidated Software Distribution PREVIEW

Introduction

This document is for the person responsible for installing the ALL-IN-1 STARTER software from Consolidated Distribution Compact Disk. It describes:

- What your ALL-IN-1 STARTER Version 2.4 Consolidated Distribution kit contains.
- Where to find installation information.
- Additional information specific to installing from the Consolidated Distribution kit.
- Gives a correction to the ALL-IN-1 STARTER Installation guide Part 1.

Note *Information in this document corrects information given in* Section 1.1.2 and A.2 Compact Disk Consolidated Distribution kits *described in the* ALL-IN-1 STARTER Installation Guide Part 1 Base Installation.

The ALL-IN-1 STARTER READ ME FIRST and Release Notes *contain further information about installation. Before you start installation, print the READ ME FIRST and Release Notes (see the* ALL-IN-1 STARTER Installation Guide Part 1 Base Installation*) and read the section on installation.*

Consolidated Distribution Compact Disk kit Contents

The Consolidated Distribution Compact Disk contains all the layered product kits required to install and run ALL-IN-1 STARTER Version 2.4. Some exist in the ALL-IN-1 STARTER market specific directory area and most of the other prerequisite or optional layered products are available from their normal directory locations on the Compact Disk.

The ALL-IN-1 STARTER Version 2.4 directory

The ALL-IN-1 STARTER Version 2.4 directory contains the following core set of kits required to install and run ALL-IN-1 STARTER.

- ALL-IN-1 STARTER Version 2.4
- WPS-PLUS Version 3.1
- CDA Patch Kit for VMS Version 5.3 - Use with VMS 5.3 only
- Message Router Version 3.1B

- Message Router VMSmail Gateway Version 3.1

Other ALL-IN-1 STARTER Version 2.4 prerequisite or optional products

The following prerequisite or optional products required to run ALL-IN-1 STARTER Version 2.4 are available from their normal directory area on the Consolidated Distribution Compact Disk:

- VAX FMS Version 2.4
- CDA Converter Library Version 1.0 - Use with VMS 5.1 or VMS 5.2
- CDA Converter Library Version 1.1 - Use with VMS 5.3 or Higher

Note *Refer to the documentation supplied with the Consolidated Distribution Compact Disk for details on how to get access to these kits.*

CAUTION *The Consolidated Distribution Compact Disk may contain later versions of some layered products than are currently supported with ALL-IN-1 STARTER. You should check the System Support Addendum, included with the product on this Compact Disk, before installing ALL-IN-1 STARTER Version 2.4, if you wish to install any prerequisite or optional products versions which are later than described here. This is to determine whether or not these later versions work with ALL-IN-1 STARTER Version 2.4.*

ALL-IN-1 STARTER Documentation on Consolidated Distribution

The following documentation is also included on the Consolidated Distribution Compact Disk:

- A Read Me First
- The ALL-IN-1 STARTER Installation Guide Part 1 Base Installation
- The ALL-IN-1 STARTER Installation Guide Part 2 Language Installation, for the language component supplied with your kit.
- The ALL-IN-1 STARTER Installation Guide Part 3 Market Installation, for the market component supplied with your kit.
- A Software Product Description (SPD)
- A System Support Addendum (SSA)
- A Software Warranty Addendum (SWA)

Packaging of ALL-IN-1 STARTER Version 2.4

ALL-IN-1 STARTER Version 2.4 is an international product and consists of the following components:

- An international base component, which provides the functions that are common to all ALL-IN-1 STARTER Version 2.4 systems.
- A language component, which provides the ALL-IN-1 STARTER Version 2.4 language-specific features. For example, User Interface features.
- A market component, which provides features that are specific to a given market. For example, keyboard and modem support.

The *ALL-IN-1 STARTER Installation Guide* is in three parts:

- *ALL-IN-1 STARTER Installation Guide Part 1 Base Installation*

  This part describes how to install ALL-IN-1 STARTER Version 2.4. Although it is a large book, you need only refer to the chapters relating to the type of installation that you are going to perform.
- *ALL-IN-1 STARTER Installation Guide Part 2 Language Installation*

  This part contains information specific to the language that you are installing; a version is supplied with each language component. Refer to this part as indicated in the *ALL-IN-1 STARTER Installation Guide Part 1 Base Installation*.
- *ALL-IN-1 STARTER Installation Guide Part 3 Market Installation*

  This part contains information specific to your market component. Refer to this part as indicated in the *ALL-IN-1 STARTER Installation Guide Part 1 Base Installation*.

The Release Notes are in two parts:

- Release Notes Part 1 Language

  This part contains release notes specific to the base component and language component that you are going to install, and is supplied with the language component of your kit.
- Release Notes Part 2 Market

  This part contains release notes specific to your market component, and is supplied with the market component of you kit. (Note that this document may not exist for all market components.)

Software Licensing

You must register and load the appropriate PAK before you install ALL-IN-1 STARTER Version 2.4 (see the *ALL-IN-1 STARTER Installation Guide Part 1 Base Installation* and the *Release Notes*) for more information.

An additional ALL-IN-1 installation option registers the PAK information for the following products (see the *ALL-IN-1 STARTER Installation Guide* for more details):

- VAX FMS Version 2.4
- Message Router Version 3.1B
- Message Router VMSmail Gateway Version 3.1
- CDA Converter Library Version 1.0 or higher

Installation Order

Refer to the *ALL-IN-1 STARTER Installation Guide Part 1 Base Installation* and the *Release Notes*) for more information.

Consolidated Distribution Compact Disk kits

The Consolidated Distribution compact Disk for your market contains directories of the form [ASlang024], where lang is the ALL-IN-1 STARTER language available to you. For example, [ASENGLISH024]. This directory contains three subdirectories: one containing the savesets for the ALL-IN-1 STARTER Version 2.4 kit, and two others containing various documentation (in ASCII text and PostScript format).

All the savesets required to install the base, language, and market components for your kit are in the directory [ASlang024.KIT]. The documentation is in the directories [ASlang024.LINE_DOCS] and [ASlang024.POSTSCRIPT_DOCS]. The contents of each directory is given in the following tables:

Table 1 Consolidated Distribution (ASlang.KIT) kit directory

Filename	Description
AS024.A to .E	International base savesets
ASLlang024.A to .H	Language component savesets
ASLRlang024.A	Release Notes Part 1 - Language
ASCmarket024.A to .B	Market component savesets
ASCRlang024.A	Release Notes Part 2 - Market
CDAPAT010.A	CDA Patch to VMS 5.3 saveset
MR031.A to .G	Message Router V3.1B savesets
MRGATE031.A to .B	Message Router VMSmail Gateway V3.1 savesets

Table 2 Example (ASENGLISH.KIT) for ALL-IN-1 STARTER/US English

Filename	Description
AS024.A to .E	International base savesets
ASLENGLISH024.A to .H	ENGLISH component savesets
ASLRENGLISH024.A	Release Notes Part 1 - ENGLISH
ASCUS024.A to .B	US Market component savesets
None	No Release Notes Part 2 for US Market
CDAPAT010.A	CDA Patch to VMS 5.3 saveset
MR031.A to .G	Message Router V3.1B savesets
MRGATE031.A to .B	Message Router VMSmail Gateway V3.1 savesets
