US Market Installation

1.1 Introduction

This document is for the person responsible for installing ALL-IN-1 STARTER. It describes information specific to your ALL-IN-1 STARTER Version 2.4 US market component.

This document does not, by itself, describe the installation of your ALL-IN-1 STARTER Version 2.4 US market component. The installation of this component is carried out as part of the main ALL-IN-1 STARTER Version 2.4 installation procedure (see the *ALL-IN-1 STARTER Installation Guide Part 1 Base Installation*). The *ALL-IN-1 STARTER Installation Guide Part 1 Base Installation* refers to information contained in this document.

1.1.1 Distribution Media

Your ALL-IN-1 STARTER Version 2.4 market kit contains the US market component of the ALL-IN-1 STARTER Version 2.4 kit and is on two pieces of media. The software for the ALL-IN-1 STARTER Version 2.4 US market kit is on the distribution media labeled:

ALL-IN-1 STARTER V2.4 US BIN
media_type MARKET COMPONENT
(c) 1990 Digital Equipment Corp.

where *media_type* is 16MT9 for tape and TK50 for a TK50 cartridge.

The *Release Notes Part 2 US market* is on the distribution media labeled:

ALL-IN-1 STARTER V2.4 US BIN
media_type RELEASE NOTES PART 2
(c) 1990 Digital Equipment Corp.

The US market component contains:

```
Saveset             Description

ASCUS024.A          ALL-IN-1 STARTER Version 2.4 US market kit
ASCUS024.B          ALL-IN-1 STARTER Version 2.4 US market kit

ASCRUS024.A         ALL-IN-1 STARTER Release Notes Part 2 US Market
```

A list of files on the ALL-IN-1 STARTER Version 2.4 US Market kit is given in Appendix A of this part.

1.1.2 Useful Information for the US Market Component

Table 1–1 lists useful information for the US market component of ALL-IN-1 STARTER Version 2.4.

Table 1–1 Useful Information for the US Market Component

Information	Value	Use
Product name	ASCUS024	Installation and naming of savesets
Market name	US	Media labeling
Market code	US	During installation
Market component kit size (blocks)	1,200	Installation
Disk space used permanently by the market files (blocks)	800	Installation
ALL-IN-1 date format:		
Alphanumeric	DD-MMM-YYYY	ALL-IN-1
Numeric	MM/DD/YY	ALL-IN-1
WPS-PLUS date format	DD-MMM-YYYY	WPS-PLUS
WPS-PLUS time separator	colon (:)	WPS-PLUS
Currency format:		
Currency symbol	$	ALL-IN-1
Decimal separator	dot (.)	ALL-IN-1
Thousand separator	comma (,)	ALL-IN-1
Page size	66	Printer settings

1.1.3 Disk Space Required During Installation

The disk space required during installation depends on whether you are installing ALL-IN-1 STARTER on the system disk only, or across several disks (see Table 1–2).

Table 1–2 Disk Space Required on the System Disk During Installation

System disk installation	Multiple disk installation
50,000 + nn	15,000 †

† This value does not include any ALL-IN-1 areas that you may want to place on the system disk. See Section 1.1.4 for the disk space require by each ALL-IN-1 area.

nn The space required for the language files is given in the *ALL-IN-1 STARTER Installation Guide Part 2 Language Installation* for the language you are installing.

If you are upgrading from ALL-IN-1 STARTER Version 1.0, the disk space required on the disk for each ALL-IN-1 area is shown in Table 1–3.

Table 1–3 Disk Space Required for Each ALL-IN-1 Area During Installation

Area	Disk Space
ALL-IN-1 manager's account	100 †
Shared library files	11,500
Shared data files	4,000
Language files	nn
Mail area SDAF file	1,000
Shared directories	n x 100

† This figure includes the [.IVPUSER], [.MGR], [.POSTMASTE], [.TRANSFER_INCOMING] and [.TRANSFER_OUTGOING] directories.

n The number of shared directories specified during the installation.

nn The space required for the language files is given in the *ALL-IN-1 STARTER Installation Guide Part 2 Language Installation* for the language you are installing.

1.1.4 Disk Space Used Permanently by ALL-IN-1 STARTER

The disk space permanently used by ALL-IN-1 STARTER Version 2.4 depends on whether or not you incorporate WPS-PLUS. Table 1–4 shows the disk space requirements for each area of ALL-IN-1 STARTER. The disk space permanently used by the language files is given in the *ALL-IN-1 STARTER Installation Guide Part 2 Language Installation* for the language you are installing.

To ease the management of ALL-IN-1 STARTER you can choose to split ALL-IN-1 STARTER across several disks, with an ALL-IN-1 area on each disk. The ALL-IN-1 areas are:

- ALL-IN-1 manager's account. This account includes the IVPUSER, MGR, POSTMASTE, TRANSFER_INCOMING and TRANSFER_OUTGOING directories.
- Shared library files.
- Shared data files.
- Language files.
- Mail area SDAF file OA$SHARE:OA$DAF_y.DAT, where y is a letter from A to E. Mail area E is created during a new installation.
- Shared directories OA$SHARynnnn, where nnnn is a number in the range 1 to 9999.

An example of the directory structure for a multiple-disk ALL-IN-1 STARTER system is given in Appendix C of the *ALL-IN-1 STARTER Installation Guide Part 1 Base Installation*.

The permanent disk space required by each ALL-IN-1 area is shown in Table 1–4. If you want more than one area on the same disk, the disk space required is the total for those areas.

Table 1–4 Disk Space Required for Each ALL-IN-1 Area

ALL-IN-1 Area	Disk Space	
	With WPS-PLUS	Without WPS-PLUS
ALL-IN-1 manager's account	1,000 †	900 †
Shared library files	31,200	26,500
Shared data files	3,000	3,000
Language files	nn	nn
Mail area SDAF file	1,000 ‡	1,000 ‡
Shared directories	n x 1000	n x 1000
System disk files	4,000 + nn	3,500 + nn

† This value includes the [.IVPUSER], [.MGR], [.POSTMASTE], [.TRANSFER_INCOMING] and [.TRANSFER_OUTGOING] directories.

n The number of shared directories specified during the installation.

‡ This is the minimum amount of free space required on the disk that is to contain the SDAF file, even though the size of the SDAF file may only be a few blocks, after ALL-IN-1 STARTER Version 2.4 is installed.

nn The space required for the language files is given in the *ALL-IN-1 STARTER Installation Guide Part 2 Language Installation* for the language you are installing.

1.1.4.1 Upgrade and Update Installations

If you are performing an upgrade or update installation, and you choose to purge files during the installation, the additional disk space required for each area is given in Table 1–5.

Table 1–5 Disk Space Required for Each ALL-IN-1 Area if Purged

Area	Disk Space
	Upgrade from ALL-IN-1 STARTER V1.0
ALL-IN-1 manager's account†	100
Shared library files	7,800
Shared data files	100
Language file	nn
Mail area SDAF file	0
Shared directories	0
System disk files	1,000 + nn

† This value includes the [.IVPUSER], [.MGR], [.POSTMASTE], [.TRANSFER_INCOMING] and [.TRANSFER_OUTGOING] directories.

nn The space required for the language files is given in the *ALL-IN-1 STARTER Installation Guide Part 2 Language Installation* for the language you are installing.

If you are performing an upgrade or update installation, and you choose not to purge files during the installation, the additional disk space required for each area is given in Table 1–6.

Table 1–6 Disk Space Required for Each Area if Not Purged

Area	Disk Space
	Upgrade from ALL-IN-1 STARTER V1.0
ALL-IN-1 manager's account†	300
Shared library files	35,200
Shared data files	100
Language files	nn
Mail area SDAF file	0
Shared directories	0
System disk files	4,500 + nn

† This value includes the [.IVPUSER], [.MGR], [.POSTMASTE], [.TRANSFER_INCOMING] and [.TRANSFER_OUTGOING] directories.

nn The space required for the language files is given in the *ALL-IN-1 STARTER Installation Guide Part 2 Language Installation* for the language you are installing.

1.1.5 Keyboard Support

Your kit contains a Keyboard Reference Card and a Keyboard Diagram for the American LK201 and VT100 keyboards.

The following keyboard mapping tables are supplied with your ALL-IN-1 STARTER Version 2.4 kit:

```
FRENCH_A1_LK201-AA.A1KMT        FRENCH_WPS_LK201-AA.A1KMT
FRENCH_A1_LK201-AP.A1KMT        FRENCH_WPS_LK201-AP.A1KMT
FRENCH_A1_LK201-BA.A1KMT        FRENCH_WPS_LK201-BA.A1KMT
FRENCH_A1_LK201_BP.A1KMT        FRENCH_WPS_LK201-BP.A1KMT
FRENCH_A1_LK201-NA.A1KMT        FRENCH_WPS_LK201-NA.A1KMT
FRENCH_A1_LK250-AA.A1KMT        FRENCH_WPS_LK250-AA.A1KMT
FRENCH_A1_LK250-AP.A1KMT        FRENCH_WPS_LK250-AP.A1KMT

GERMAN_A1_LK201-AG.A1KMT        GERMAN_WPS_LK201-AG.A1KMT
GERMAN_A1_LK201-BA.A1KMT        GERMAN_WPS_LK201-BG.A1KMT
GERMAN_A1_LK201-BG.A1KMT        GERMAN_WPS_LK201-BA.A1KMT
GERMAN_A1_LK250-AG.A1KMT        GERMAN_WPS_LK250-AG.A1KMT

SPANISH_A1_LK201-AA.A1KMT       SPANISH_WPS_LK201-AA.A1KMT
SPANISH_A1_LK201-BA.A1KMT       SPANISH_WPS_LK201-BA.A1KMT
SPANISH_A1_LK201-BS.A1KMT       SPANISH_WPS_LK201-BS.A1KMT
SPANISH_A1_LK201-LS.A1KMT       SPANISH_WPS_LK201-LS.A1KMT
SPANISH_A1_LK250-AS.A1KMT       SPANISH_WPS_LK250-AS.A1KMT
```

These mapping tables are invoked by entering:

```
$  ALLIN1/KEYBOARD=keyboard_mapping
```

where keyboard_mapping is the identity of the required keyboard. A list of these keywords is held in OA$DATA_SHARE:OA$KEYBOARDS.DAT (see the *ALL-IN-1 Management Guide*).

A

Files on the ALL-IN-1 STARTER Version 2.4 US Market kit

This appendix contains a list of the files on the ALL-IN-1 STARTER Version 2.4 US Market kit.

Note **.ELE files are used by the installation procedure to transfer the files to the correct place. These files are removed when the installation is completed.*

Each saveset has a unique kit revision identifier, <revision>, given by the file AS024COUNTRYsaveset.REV_<revision> (for example, AS024COUNTRYA.REV_A), where saveset is the saveset identity (A or B).

The files in each saveset are listed in the next section.
