Read Before Installing or Using the CDA Converter Library Version 1.0

AV–NG88B–TE

The CDA Converter Library Version 1.0 provides an extended set of supported formats to the file conversion and viewing capabilities provided as part of VMS Version 5.1, ULTRIX Version 3.0, and UWS Version 2.0. The supported formats are document, graphics, image, and table data.

Whether you are a new or a continuing CDA customer, please take time to read the following information about the CDA Converter Library Version 1.0.

Installation Information

The CDA Converter Library Version 1.0 requires VMS Version 5.1 or higher, ULTRIX Version 3.0 or higher, or UWS Version 2.0 or higher.

Before you install the CDA Converter Library Version 1.0 on VMS, you must register the product using the Product Authorization Key (PAK) provided in the kit. See the *VMS License Management Utility Manual* for registration instructions.

Release Notes Information

The release notes for the CDA Converter Library Version 1.0 contain important installation-related instructions, known problems, documentation errors, restrictions, and incompatibilities.

You can read the release notes before installing the CDA Converter Library on VMS by invoking VMSINSTAL with the release notes option, N, and following the instructions that start the installation procedure. You can also read the release notes following the installation of the CDA Converter Library on VMS by typing or printing the following file.

```
SYS$HELP:CDACVTLIB010.RELEASE_NOTES
```

To locate the release notes after the CDA Converter Library is installed on ULTRIX-32 (VAX) or ULTRIX-32 (RISC), display or print the following file.

```
/usr/doc/cdrbase_010.release_notes
```

Contents of This Kit

- **Indented Bill Report (BIL) and Bill of Materials (BOM)**
  Please read the BIL and BOM enclosed in this kit and check to see that all items listed are actually in your kit. If your kit is damaged or any items are missing, call your Digital representative.

©Digital Equipment Corporation. 1989. All rights reserved.

- **Media**

  If you ordered media, you will find the media and the *CDA Converter Library Installation Guide* in this kit. Consult the *CDA Converter Library Installation Guide* for information about installing the CDA Converter Library on your system.

- **Documentation**

  Depending on your order, this kit may include copies of the following CDA Converter Library documentation:

  Guide to the CDA Converter Library
  Getting Started with the CDA Converter Library

  Note that the *CDA Converter Library Installation Guide* is included with the media.

- **Product Authorization Key (PAK)**

  The PAK contains information necessary to register the CDA Converter Library before you install it on a VMS system.

- **Software Product Description (SPD)**

  The SPD provides an overview of the CDA Converter Library kit and its features.

- **Software Performance Report (SPR)**

  Use this form to report any problems with the CDA Converter Library, provided you have
  purchased warranty services.

- **Software Installation Survey Card**

  By completing this card after you install the CDA Converter Library, you provide valuable
  feedback to Digital on installation quality. Your feedback helps us understand customer needs and improve our products.

A Final Note

Digital prides itself on responding to customer needs. In order to continue serving you, we need your comments. Each manual contains preaddressed, postage-paid Reader's Comments forms at the back. If you find errors in a manual or want to make comments about it, please fill out one of these forms and send it to us.

DECUS — The Benefits of Belonging

DECUS, the Digital Equipment Computer Users Society, is one of the largest and most active user groups in the computer industry. Since it was founded in 1961, DECUS has grown internationally, with more than 70,000 members worldwide.

DECUS, a not-for-profit organization, is actively directed by individuals like yourself who have
purchased, leased, or ordered a Digital computer, who currently use a Digital computer, or who have a genuine interest in DECUS.

Membership is free. Benefits of belonging to DECUS include the following:

Interchange of information among users and with Digital personnel

DECUS maintains contact between Digital and users primarily through Special Interest Groups (SIGs). SIGs are formed around areas of common interest, such as hardware, operating systems, languages, applications, and marketing. SIGs participate in a newsletter and they offer effective and focused exchanges of information between Digital and users. In addition, SIGs represent users on ANSI committees responsible for standards.

Local area activities

DECUS members participate on a local level through one of many Local User Groups (LUGs). Digital often assigns representatives to keep LUGs informed of new products and available services.

Symposia

DECUS holds symposia around the world several times each year. Intensive days of meetings consist of workshops, panels, tutorials, and formal paper presentations.

SIGs also sponsor seminars at which both Digital and users give presentations on topics such as strategies, products, problems, and solutions that are of interest to Digital users.

Software at nominal charge

DECUS maintains a library of approximately 2000 active programs written and submitted by users. These programs include compilers, editors, numerical functions, utilities, and games. Individual SIGs also maintain separate libraries of programs specific to each Digital software product. Programs from the libraries are available to any DECUS member. You can get ordering information from your DECUS office.

Feedback to Digital

DECUS members have significant input into Digital's hardware and software designs. Digital
managers and developers frequently participate in symposia and SIG/LUG meetings to obtain feedback on current products and to get direction for future products.

Publications

DECUS produces a newsletter, symposia proceedings, SIG newsletters, and other publications containing useful technical ideas and information about industry trends. (Please note that there are charges for some of these services.)

The following is a list of the DECUS SIGs:

APL	MUMPS
BUSINESS APPLICATIONS	NETWORKS
DAARC	THE NATIONAL LUG ORGANIZATION (NLO)
DATATRIEVE	OFFICE AUTOMATION
DATA MANAGEMENT SYSTEMS	PERSONAL COMPUTER
DATABASE MANAGEMENT SYSTEMS	REFERRED PAPERS JOURNAL
EDUCATIONAL	RSTS
GRAPHICS APPLICATIONS	RSX
HARDWARE AND MICRO	RT-11
INTERACTIVE APPLICATIONS SYSTEM	SITE MANAGEMENT AND TRAINING
LANGUAGES AND TOOLS	UNISIG
LARGE SYSTEMS	VAX SYSTEMS
