September 1991

**Digital Equipment Corporation**
**Maynard, Massachusetts**

## Additional Product Information

### ALL–IN–1 SERVICES FOR DECWINDOWS—Version 1.0

- ALL–IN–1 Services for DECwindows, Version 1.0, contains updated release notes in the ASD010.A saveset. Please install this saveset to restore the updated release notes.
- This product will not install with VMS DECwindows Motif, Version 1.0. The Developement group will be releasing a new kit which will be made available on the next release of ConDist.

### ALL–IN–1—Version 2.4D

- ALL–IN–1, Version 2.D, contains an mandatory update kit, A1024SUS020.A which can be installed via VMSINSTAL. Please refer to the cover letters contained in the [A1024SUS020.LINE_DOCS] and [A1024SUS020.POST_DOCS] directories for additional information.

### DEC PRINTSERVER SUPPORTING HOST SOFTWARE FOR VMS—Version 4.0

- DEC Printserver Supporting Host Software, Version 4.0 contains a patch saveset, CPS040_PAT.A, which is needed to patch DECprint Printing Services for VMS, version 4.0. Please refer to the cover letters provided in the [LPSSVS040.LINE_DOCS] and [LPSSVS040.POST_DOCS] directories for additional information.

### DECMESSAGEQ FOR VMS—Version 1.0

- DECmessageQ for VMS, Version 1.0, contains software updates for the DECmessageQ and LU6.2 Option kits. Please re-install this product if you installed from the July 1991 release of VMS Consolidated Software Distribution.

### DECNET/SNA DATA TRANSFER FACILITY (Server)—Version 3.0

- DECnet/SNA Data Transfer Facility (Server), Version 3.0, contains an updated kit. Please re-install this product if you previously installed from July 1991 VMS Consolidated Software Distribution.

### DECPRINT PRINTING SERVICES FOR VMS—Version 4.0

- DECprint Printing Services for VMS, Version 4.0, contains software updates which did not appear on the July 1991 VMS Consolidated Software Distribution. Please re-install this product provided on this release.

### TERMINAL SERVER MANAGER—Version 1.4

- Terminal Server Manager, Version 1.4, contains software updates which did not appear on the July 1991 release of VMS Consolidated Software Distribution. Please re-install this product if you installed from the July 1991 release.

### VAX ACMS (Runtime)—Version 3.2

- VAX ACMS, Version 3.2, contains last minute bug fixes, updated Release Notes and Before-You-Install letters. If you installed this product from the July 1991 release of VMS Consolidated Software Distribution, you will need to install the updated kits provided on this release.

### VAX DATATRIEVE—Version 5.1

- VAX DATATRIEVE, Version 5.1, contains a patch kit that can be installed via VMSINSTAL. This patch kit modifies the VAX DATATRIEVE library contained in DTR$LIBRARY:DTRLIB.OLB substituting one of its modules, and rebuilds the VAX DATATRIEVE images. Please read the instructions contained in the cover letter located in the [DTR051.POST_DOCS] directory to apply the patch.

### VAX PERFORMANCE ADVISOR—Version 2.1

- VAX Performance Advisor, Version 2.1, contains a patch kit that can be installed via VMSINSTAL. This patch kit has been provided by the Digital Customer Support Center, and addresses many issues. Please read the cover letter provided in the [VPA021.LINE_DOCS] and [VPA021.POST_DOCS] directories for further information.

### VAXSET—Version 10.0

- The VAXset Package, Release 10, is listed separately in the Compact Disc Contents section of this booklet. Its Software Product Description and cover letter are listed in the [VAXSET100.LINE_DOCS] and [VAXSET100.POST_DOCS] directories.

  The following products comprise the VAXset Package, Release 10:

  - VAX Performance and Coverage Analyzer, Version 3.0
  - VAX Language Sensitive Editor/Source Code Analyzer, Version 3.1
  - VAX DEC/Test Manager, Version 3.2
  - VAX DEC/CMS, Version 3.4
  - VAX DEC/MMS, Version 2.6

  Each of the six component products which comprise the VAXset Package is listed separately as well. Binaries and documentation are located in the VAXset [.KIT] and documentation directories, as well as in each of the component's [.KIT] and documentation directories.

For additional information on the VAXset Package, refer to the VAXset SPD and cover letter.

## VMS OPERATING SYSTEM—Version 5.4

- This disc contains VMS Operating System Version 5.4. It is the first major release since VMS Version 5.3. Refer to the VMS Version 5.4 Cover Letter, Release Notes, and Upgrade and Installation Procedures contained in the [VMS054.LINE_DOCS] or [VMS054.POSTS_DOCS] directory to install or upgrade to VMS Version 5.4.
- The System Integrated Products (SIP) are listed as separate products in the Compact Disc Contents section of the cover letter. Each SIP has a Software Product Description (SPD) which is located in the [LINE_DOCS] sub-directory for each SIP respectively. The following SIPs are included on this disc:
  - VMS Volume Shadowing, Version 5.4
  - DECnet–VAX, Version 5.4
  - VAX RMS Journaling, Version 5.4
  - VAXcluster Software, Version 5.4
