Software Product Description

PRODUCT NAME: DECwindows 4125 Emulator for VMS, Version 1.0 **SPD 31.60.00**

DESCRIPTION

DECwindows 4125 Emulator for VMS allows applications that utilize Tektronix 4125 terminals to run in a DECwindows environment. The Emulator supports functions documented by Tektronix® for the Tektronix Model 4125 Color Graphics terminal. It also supports selected 4010/4014 applications.

Note: Not all Tektronix 4125 terminal features are supported in DECwindows 4125 Emulation. A complete list of features supported by this product are listed in Chapter 4 of the *DECwindows 4125 Emulator Installation and User's Guide* Catalog Number AA-NE34A-TE.

Third party software applications may utilize Tektronix features unique to a specific model. Customers should contact the third party vendor regarding software compatibility with Tektronix 4125.

Features

The DECwindows 4125 Emulator uses the same mouse and windowing techniques as other DECwindows applications. Users can use the mouse to choose commands from a menu, expand and shrink windows and rearrange windows on the screen. DECwindows-style HELP is also provided.

The DECwindows 4125 Emulator displays a command menu with the following features:

- Reset - Clears all information from the Emulator windows and resets the emulator to the system defaults
- Renew All - Updates all views
- Renew Current - Updates the current view
- Setup - To enter or exit Emulator Setup Mode
- Viewing Keys - To select functions equivalent to the four viewing keys on the right side of the Tektronix 4125 keyboard
- Quit - Exit the Emulator and close all Emulator windows

Some of the Tektronix 4125 features that are emulated by this product are:

- Graphics Input and Output
- Segments
- Setup
- Macros
- Stroke Text
- Multiple Views
