Processor Restrictions:

- A minimum of a R80/RL02 configuration is required for VAX-11/730 systems.
- For VAX-11/730 systems, the IEU11-A must be mounted in an expansion cabinet due to cabling constraints, unless a System Building Block configuration is used.
- Minimum hardware revision for support on 8200, 8250, 8300, 8350 BI series CPUs is IEU11 Revision E and DWBUA Revision F.

Other Hardware Required

- At least 6K bytes nonpaged pool memory for the driver
- At least one IEU11-A for UNIBUS based VAX systems
- At least one IEQ11-A for Q-bus based VAX systems

Block Space Requirements (Block Cluster Size = 1):

Disk space required for installation:	1,300 blocks (.7M bytes)
Disk space required for use (permanent):	1,000 blocks (.5M bytes)

These counts refer to the disk space required on the system disk. The sizes are approximate; actual sizes may vary depending on the user's system environment, configuration, and software options.

OPTIONAL HARDWARE

Up to 3 additional IEU11/IEQ11 modules may be added to each system for a total of 4 maximum.

CLUSTER ENVIRONMENT

This layered product is fully supported when installed on any valid and licensed VAXcluster* configuration. It must be installed once on each VAX, MicroVAX or VAXstation processor on which usage is planned.

In order to configure some product specific attributes that must remain unique to each system, certain components of the product are stored in the system specific environment, SYS$SPECIFIC:[SYSxxx], of the VAX, MicroVAX or VAXstation processor on which the installation is performed. The remaining components of the product, including some or all of the executable images, will be installed common to all accessing systems.

The *HARDWARE REQUIREMENTS* sections of this product's Software Product Description and System Support Addendum detail any special hardware required by this product.

* V5.x VAXcluster configurations are fully described in the VAXcluster Software Product Description (SPD 29.78.xx) and include CI, Ethernet and Mixed Interconnect configurations.
