System Support Addendum

PRODUCT NAME: VAX PrintServer Client Software, Version 3.0 **SSA 27.67.04-A**

HARDWARE REQUIREMENTS

Processors Supported

VAX: VAX 6210, VAX 6220, VAX 6230, VAX 6240, VAX 6310, VAX 6320, VAX 6330, VAX 6333, VAX 6340, VAX 6350, VAX 6360, VAX 8200, VAX 8250, VAX 8300, VAX 8350, VAX 8500, VAX 8530, VAX 8550, VAX 8600, VAX 8650, VAX 8700, VAX 8800, VAX 8810, VAX 8820, VAX 8830, VAX 8840, VAX 8842, VAX 8974, VAX 8978

VAX-11/750, VAX-11/780, VAX-11/782, VAX-11/785

MicroVAX: MicroVAX II, MicroVAX 2000, MicroVAX 3300/3400, MicroVAX 3500/3600, MicroVAX 3800/3900

VAXstation: VAXstation II, VAXstation 2000, VAXstation 3100, VAXstation 3200/3500, VAXstation 3520/3540, VAXstation 8000

VAXserver: VAXserver 3300/3400/3500/3600, VAXserver 6310/6320, VAXserver 3800/3900

Not Supported: MicroVAX I, VAXstation I, VAX 11/725

Processor Restrictions

The VAX-11/782 processor is not supported by VMS Operating System V5.x.

The PrintServer Client software runs on the following VAX hardware:

Any valid VAX minimum system configuration with:

- 2 megabytes of memory
- DELUA or DEUNA or DEBNT Ethernet Controller Interface
- 1600 BPI Tape drive, or TK50 tape drive
- System disk

Any valid MicroVAX or VAXstation system configuration with:

- Minimum of two megabytes of memory
- DEQNA or DELQA Ethernet Controller Interface
- A TK50 tape drive
- RD52, RD53 or RD54 system disk

The PrintServer Client software requires that a minimum of one PrintServer (a PrintServer 20, a PrintServer 40, or a PrintServer 40 Plus) is connected to the Ethernet physical channel with a transceiver cable and either an Ethernet transceiver (H4000) or the Local Network Interconnect (DELNI) or the ThinWire Ethernet Station Adapter (DESTA).

Block Space Requirements (Block Cluster Size = 1):

Disk space required for installation:	3500 blocks (3.28M bytes)
Disk space required for use (permanent):	2700 blocks (1.38M bytes)

These counts refer to the disk space required on the system disk. The sizes are approximations; actual sizes may vary depending on the user's system environment, configuration and software options selected.

OPTIONAL HARDWARE

Additional PrintServers may be connected to the Ethernet physical channel.

VAXCLUSTER ENVIRONMENT

This layered product is fully supported when installed on any valid and licensed VAXcluster* configuration without restrictions. The HARDWARE REQUIREMENTS sections of this product's Software Product Description and System Support Addendum detail any special hardware required by this product.

* V5.x VAXcluster configurations are fully described in the VAXcluster Software Product Description (29.78.xx) and include CI, Ethernet, and Mixed Interconnect configurations.

SOFTWARE REQUIREMENTS

VMS Operating System V4.7, V5.0, V5.1, or V5.2

MicroVMS Operating System V4.7

DECnet-VAX V5.0, V5.1 or V5.2

VAX PrintServer Supporting Host Software V3.1 installed on one system on the same Ethernet.

VMS Tailoring

For VMS V5.x systems, the following classes of VMS are required for full functionality of this layered product:

- VMS Required Saveset
- Network Support
- System Programming Support
- Secure User's Environment
- Utilities

For more information on VMS classes and tailoring, refer to the VMS Operating System Software Product Description (SPD 25.01.xx)

MicroVMS Tailoring

For MicroVMS V4.7 systems, the following are required for full functionality of this layered product:

- Base System
- Program Development

For more information on MicroVMS components, refer to the MicroVMS Operating System Software Product Description.

OPTIONAL SOFTWARE

None

GROWTH CONSIDERATIONS

The minimum hardware/software requirements for any future version of this product may be different from the minimum requirements for the current version.

DISTRIBUTION MEDIA

Tape: 9-track 1600 BPI Magtape (PE), TK50 Tape Cartridge
