Read Before Installing or Using VAX Pascal Version 4.2
AV-R581S-TE

Whether you are a new or a continuing VAX Pascal customer, please take time to read the following information about your product.

Installation Information

VAX Pascal Version 4.2 requires VMS Version 5.2.

Before you install VAX Pascal Version 4.2, you must register the product using the Product Authorization Key (PAK) provided in the kit. See the *VMS License Management Utility Manual* for registration instructions. Previous versions of VAX Pascal do not need to be installed before this version.

Release Notes Information

The release notes for VAX Pascal Version 4.2 contain important installation-related instructions and a summary of technical changes, new features, differences, known problems, corrected errors, performance enhancements, documentation errors, restrictions, and incompatibilities.

Contents of This Kit

- **Indented Bill Report (BIL) and Bill of Materials (BOM)**

  Please read the BIL and BOM enclosed in this kit and check to see that all items listed are actually in your kit. If your kit is damaged or any items are missing, call your Digital representative.

- **Media**

  If you ordered media, you will find the media and the *VAX Pascal Installation Guide* in this kit. Consult the *VAX Pascal Installation Guide* for information about installing VAX Pascal on your system.

- **Documentation**

  Depending on your order, this kit may include copies of the following VAX Pascal documentation:

  VAX Pascal Reference Manual
  VAX Pascal Reference Supplement for VMS Systems
  VAX Pascal User Manual

  Note that the *VAX Pascal Installation Guide* is included with the media.

- **Product Authorization Key (PAK)**

  The PAK contains information necessary to register VAX Pascal before you install it.

©Digital Equipment Corporation. 1991. All rights reserved.

- **Software Product Description (SPD)**

  The SPD provides an overview of the VAX Pascal kit and its features.

- **System Support Addendum (SSA)**

  The SSA describes the technical environment in which the product is supported.

- **Software Performance Report (SPR)**

  Use this form to report any problems with VAX Pascal, provided you have purchased warranty services.

Restriction

Please note that to use the /DESIGN qualifier with VAX Pascal Version 4.1, you must have VAX Language-Sensitive Editor (LSE) Version 3.0 installed on your system.

LSE Version 3.0 is available individually or in VAXset Version 9.0.

A Final Note

Digital prides itself on responding to customer needs. In order to continue serving you, we need your comments. Each manual contains preaddressed, postage-paid Reader's Comments forms at the back. If you find errors in a manual or want to make comments about it, please fill out one of these forms and send it to us.
