Read Before Installing or Using PDP–11 Symbolic Debugger

AV–HA48C–TK

Whether you are a new or a continuing PDP–11 Symbolic Debugger customer, please take time to read the following information about your product.

Description

PDP–11 Symbolic Debugger Version 2.2 is an enhancement of PDP–11 Symbolic Debugger Version 2.0. It contains new features, bug fixes, and changes.

PDP–11 Symbolic Debugger is designed for the following operating systems:

- VAX–11 RSX
- RSX–11M
- RSX–11M–PLUS
- Micro/RSX
- RSTS/E

Installation Information

PDP–11 Symbolic Debugger Version 2.2 requires one of the following systems with a version number at least as high as the one listed:

- VAX–11 RSX Version 2.4 with VMS Version 5.0-1 through 5.4
- RSX–11M Version 4.6
- RSX–11M–PLUS Version 4.3
- Micro/RSX Version 4.3
- RSTS/E Version 9.7

Release Notes Information

The release notes for PDP–11 Symbolic Debugger Version 2.2 contain important installation-related instructions and a summary of technical changes, new features, differences, known problems, corrected errors, performance enhancements, and restrictions.

You should read the online release notes before installing PDP–11 Symbolic Debugger. For information on how to access the notes, refer to the *PDP–11 Symbolic Debugger Installation Guide*.

CAUTION

Micro/RSX users who have PDP–11 Symbolic Debugger Version 2.1 installed on their system must read the Release Notes section on ''Installing PDP–11 Symbolic Debugger on Micro/RSX'' before installing PDP–11 Symbolic Debugger Version 2.2.

PDP–11 Symbolic Debugger includes corrections, additions, clarifications, and other minor improvements. The technical changes for PDP–11 Symbolic Debugger Version 2.2 are as follows:

- Indirection of address expressions has been added.
- Multi-level HELP has been improved.
- Auto-Install has been added to install PDP–11 Symbolic Debugger on RSX and RSTS/E operating systems.

Contents of This Kit

- Indented Bill Report (BIL) and Bill of Materials (BOM)

  Please read the BIL and BOM enclosed in this kit, and check to see that all listed items are actually in your kit. If your kit is damaged or has missing parts, call your Digital representative.

- Media

  This kit includes any media you have ordered. The *PDP–11 Symbolic Debugger Installation Guide*, included in the documentation kit, explains how to install PDP–11 Symbolic Debugger on the following systems:

  — VAX–11 RSX

  — RSX–11M

  — RSX–11M–PLUS

  — Micro/RSX

  — RSTS/E

- Documentation

  If you ordered documentation, you should have received the following manuals:

  PDP–11 Symbolic Debugger User's Guide
  PDP–11 Symbolic Debugger Installation Guide

- Software Product Description (SPD)

  Your SPD provides an overview of the PDP–11 Symbolic Debugger kit and its features.

- Software Performance Report (SPR)

  If you have purchased warranty services, use this form to report any problems with PDP–11 Symbolic Debugger.

A Final Note

Digital prides itself on responding to customer needs. In order to continue serving you, our customers, we need your comments. Each manual you receive contains a preaddressed, postage-paid Reader's Comments form at the back. If you find errors in a manual or want to make comments about it, please fill out this form and send it to us.

DECUS—The Benefits of Belonging

DECUS, the Digital Equipment Computer Users Society, is one of the largest and most active user groups in the computer industry. Since it was founded in 1961, DECUS has grown internationally, with more than 70,000 members worldwide.

DECUS, a not-for-profit organization, is actively directed by individuals like yourself who have purchased, leased, or ordered a Digital computer, who currently use a Digital computer, or who have a genuine interest in DECUS.

Membership is free. Benefits of belonging to DECUS include the following:

Interchange of Information Among Users and with Digital Personnel

DECUS maintains contact between Digital and users primarily through Special Interest Groups (SIGs). SIGs are formed around areas of common interest, such as hardware, operating systems, languages, applications, and marketing. SIGs participate in a newsletter and they offer effective and focused exchanges of information between Digital and users. In addition, SIGs represent users on ANSI committees responsible for standards.

Local Area Activities

DECUS members participate on a local level through one of many Local User Groups (LUGs). Digital often assigns representatives to keep LUGs informed of new products and available services.

Symposia

DECUS holds symposia around the world several times each year. Intensive days of meetings consist of workshops, panels, tutorials, and formal paper presentations.

SIGs also sponsor seminars at which both Digital and users give presentations on topics such as strategies, products, problems, and solutions that are of interest to users of Digital's products.

Software at Nominal Charge

DECUS maintains a library of approximately 2000 active programs written and submitted by users. These programs include compilers, editors, numerical functions, utilities, and games. Individual SIGs also maintain separate libraries of programs specific to each Digital software product. Programs from the libraries are available to any DECUS member. You can get ordering information from your DECUS office.

Feedback to Digital

DECUS members have significant input into Digital's hardware and software designs. Digital managers and developers frequently participate in symposia and SIG/LUG meetings to obtain feedback on current products and direction for future products.

Publications

DECUS produces a newsletter, symposia proceedings, SIG newsletters, and other publications containing useful technical ideas and information about industry trends. (Please note that there are charges for some of these services.)

The following is a list of the DECUS SIGs:

APL
Business Applications
DAARC
DATATRIEVE
Data Management Systems
Database Management Systems
Educational
Graphics Applications
Hardware and Micro
Interactive Applications Systems
Languages and Tools
Large Systems
MUMPS
Networks
The National LUG Organization (NLO)
Office Automation
Personal Computer
Refereed Papers Journal
RSTS
RSX
RT–11
Site Management and Training
UNISIG
VAX Systems
