Read Before Installing or Using VAX SCAN Version 1.2
AA-FU79C-TE

Whether you are a new or a continuing VAX SCAN (SCAN) customer, please take time to read the following information about your product.

Installation Information

SCAN Version 1.2 requires VMS Version 5.0 or higher.

If you are installing SCAN Version 1.2 on a newly-licensed node or cluster, you must first register a License Product Authorization Key (License PAK) using the License Management Facility (LMF). The License PAK may be shipped along with the kit if you ordered the license and media together; otherwise, it is shipped separately to a location based on your license order.

If you are installing SCAN Version 1.2 as an update on a node or cluster already licensed for this software, you must register the Service Update PAK (SUP) that is included in your Service Update Kit. If you already registered a License PAK or a SUP for this product on this node or cluster, you do not need to register the SUP.

If you are installing an update of SCAN but lack a service contract, call your Digital representative for instructions on how to get a License PAK.

See the *VMS License Management Utility Manual* for registration instructions.

Previous versions of SCAN do not need to be installed before this version.

Release Notes Information

The release notes for SCAN Version 1.2 contain new features, known problems, corrected errors, and restrictions.

You can read the release notes before installing SCAN by invoking VMSINSTAL and following the instructions that start the installation procedure. You can also read release notes following the installation of SCAN by typing:

```

Contents of This Kit

- **Indented Bill Report (BIL) and Bill of Materials (BOM)**

  Please read the BIL and BOM enclosed in this kit and check to see that all items listed are actually in your kit. If your kit is damaged or any items are missing, call your Digital representative.

- **Media**

  If you ordered media, you will find the media and the *VAX SCAN Installation Guide* in this kit. Consult the *VAX SCAN Installation Guide* for information about installing SCAN on your system.

- **Documentation**

  Depending on your order, this kit may include copies of the following SCAN documentation:

  Guide to VAX SCAN

  Note that the *VAX SCAN Installation Guide* is included with the media.

- **Software Product Description (SPD)**

  The SPD provides an overview of the SCAN kit and its features.

- **System Support Addendum (SSA)**

  The SSA describes the technical environment in which the product is supported.

- **Software Performance Report (SPR)**

  Use this form to report any problems with SCAN, provided you have purchased warranty services.

A Final Note

Digital prides itself on responding to customer needs. In order to continue serving you, we need your comments. Each manual contains preaddressed, postage-paid Reader's Comments forms at the back. If you find errors in a manual or want to make comments about it, please fill out one of these forms and send it to us.
