DECnet/SNA VMS Application Programming Interface Version 2.3

AV-KZ95B-TE

May, 1989

Dear Customer:

Please review the following information concerning your DECnet/SNA VMS Application Programming Interface distribution kit.

This package contains the DECnet/SNA VMS Application Programming Interface Version 2.3 software and user documentation. Please check the Bill of Materials to see that all the items listed are in your distribution kit. If any item is missing or damaged, please contact your Digital Equipment Corporation representative.

The DECnet/SNA VMS Application Programming Interface Version 2.3 software supports VMS V5.0, V5.1, or V5.2, and LMF requirements.

The DECnet/SNA VMS Application Programming Interface Version 2.3 documentation set includes the following:

- *DECnet/SNA VMS Application Programming Interface Installation (AA-EW86C-TE)*
- *DECnet/SNA VMS Application Programming Interface Problem Solving (AA-NG05A-TE)*
- *DECnet/SNA VMS Application Programming Interface Programming (AA-P591E-TE)*
- On-line release notes

If you need to order any additional documentation, contact your Digital sales representative or refer to the ordering information in the *Software Documentation Products Directory*.

The DECnet/SNA VMS Application Programming Interface release notes are on line as part of the distribution kit. You should access the release notes because they may contain changes to the installation procedure. To do this, specify OPTIONS N when you start VMSINSTAL:

```
$ @SYS$UPDATE:VMSINSTAL SNALU0023 devcu:  OPTIONS N
```

where:

SNALU0023	is the product name.
devcu	refers to your storage device, for example, MUA0.

Copyright ©1989 by Digital Equipment Corporation • All rights reserved • Printed in U.S.A.

OPTIONS N	allows you to display or print the release notes, or you can copy them to SYS$HELP. If you copy the release notes to SYS$HELP, you can access them in the future under the filename SYS$HELP:SNALU0023.RELEASE_NOTES.
