Read Before Installing or Using VAX DEC/Code Management System Version 3.4

AV–Z339J–TE

Whether you are a new or a continuing VAX DEC/Code Management System (CMS) customer, please take time to read the following information about your product.

Installation Information

Version 3.4 of CMS requires VMS Version 5.3 or higher. The CMS DECwindows interface requires VMS Version 5.3 (running DECwindows Version 2.0) or higher. Previous versions of CMS do not need to be installed before this version.

Before you install CMS Version 3.4, you must register the product using the Product Authorization Key (PAK) provided in the kit, or register an equivalent PAK (for example, the VAXset PAK). See the *VMS License Management Utility Manual* for registration instructions.

Release Notes Information

The release notes for CMS Version 3.4 contain information on new features, functional enhancements, known problems and restrictions, bug fixes, and documentation corrections.

You can read the release notes before installing CMS by invoking VMSINSTAL and following the instructions in the installation guide. The release notes can be found in the SYS$HELP directory.

Contents of This Kit

- **Indented Bill Report (BIL) and Bill of Materials (BOM)**

  Please read the BIL and BOM enclosed in this kit, and check to see that all items listed are actually in your kit. If your kit is damaged, or if you find that parts of it are missing, call your Digital representative.

- **Media**

  If you have ordered media, you will find the media and the *VAX DEC/Code Management System Installation Guide* in this kit. This guide supplies the information you need to install CMS on your system.

- **Documentation**

  Depending on your order, this kit may include copies of the following CMS documentation:

  Guide to VAX DEC/Code Management System
  VAX DEC/Code Management System Callable Routines Reference Manual

  Note that the *VAX DEC/Code Management System Installation Guide* is included with the media.

© Digital Equipment Corporation. 1990. All rights reserved.

- **Software Product Description (SPD)**

  The SPD provides an overview of the CMS kit and its features.

- **Software Performance Report (SPR)**

  Use this form to report any problems with CMS, provided you have purchased warranty services.

- **Software Update Survey Card**

  By completing this card after you install CMS, you provide valuable feedback to Digital on installation quality. Your feedback helps us to understand customer needs and improve our products.

A Final Note

Digital prides itself on responding to customer needs. In order to continue serving you, we need your comments. Each manual contains preaddressed, postage-paid Reader's Comments forms at the back. If you find errors in a manual or want to make comments about it, please fill out one of these forms and send it to us.
