Software Product Description

PRODUCT NAME: VAX DEC/MMS, Version 2.6 **SPD 26.03.13**

DESCRIPTION

VAX DEC/MMS is a software tool designed to enhance programmer productivity. It determines what components in a described software system have changed, and rebuilds the system in an optimal way.

When some modules of a software system are modified, dependent modules may need to be recompiled. VAX DEC/MMS determines which modules need to be recompiled, and performs the appropriate actions to ensure that the software system is recompiled and linked with all the latest changes. Additionally, VAX DEC/MMS has the ability to interact with VAX DEC/CMS (Code Management System, SPD 25.52.xx) and other VMS software productivity tools.

VAX DEC/MMS is included in the VAXset (SPD 27.07.xx) software development tool package. This package provides simplified ordering and maintenance of various tools. See the appropriate Software Product Descriptions for more information on VAXset.

Features

- VAX DEC/CMS compatibility
- Integration with other VMS software productivity tools
- Can access VMS object libraries
- Can be used with any VMS supported language
- Supports VAX SCAN
- Support the COBOL/Analysis command
- Supports DECforms
- Can access VAX CDD/Plus definitions

Note: Installations utilizing VAX Ada should note that many of the features of VAX DEC/MMS are duplicated by the ACS library manager subsystem for Ada-encoded programs. VAX DEC/MMS retains its benefits as a productivity aide for such installations primarily for non-Ada programming.

HARDWARE REQUIREMENTS

VAX, MicroVAX, VAXstation, or VAXserver configuration as specified in the System Support Addendum (SSA 26.03.13.-x).

SOFTWARE REQUIREMENTS

- VMS Operating System

On VMS workstations running windowing software, VAX DEC/MMS may be used in terminal emulator windows (for example, from DECterm). VAX DEC/MMS does not have a DECwindows user interface.

Refer to the System Support Addendum (SSA 26.03.13-x) for the availability and versions of required software.

ORDERING INFORMATION

Software Licenses: QL-VADA*-**
Software Media: QA-VADA*-**
Software Documentation: QA-VADAA-GZ
Software Product Services: QT-VADA*-**

* Denotes variant fields. For additional information on available licenses, services and media refer to the appropriate price book.

SOFTWARE LICENSING

This software is furnished under the licensing provisions of Digital Equipment Corporation's Standard Terms and Conditions. For more information about Digital's licensing terms and policies, contact your local Digital office.
