Read Before Installing or Using DEC Visual User Interface Tool Version 1.0

Please take time to read the following information about DEC Visual User Interface Tool (DEC VUIT™).

Installation Information

DEC VUIT is available for both VMS™ and ULTRIX™ operating systems. The documentation included in your kit applies to both systems.

VMS: DEC VUIT Version 1.0 requires VMS Version 5.3 or higher.

ULTRIX: DEC VUIT Version 1.0 requires ULTRIX Version 3.1 or higher.

Before you install and run DEC VUIT Version 1.0 on a newly-licensed node or cluster, you must first register a License Product Authorization Key (License PAK) using the License Management Facility (LMF). The License PAK may be shipped along with the kit if you ordered the license and media together; otherwise, it is shipped separately to a location based on your license order. If you are installing DEC VUIT as an update on a node or cluster already licensed for this software, you have already completed the License PAK registration requirements.

See the *VMS License Management Utility Manual* for registration instructions for a VMS system. For complete information on using the ULTRIX License Management Facility, see the *ULTRIX Version 4.0 Guide to Software Licensing* or the *lmf(8)* reference page.

If your company participated in the DEC VUIT field test, and you are installing DEC VUIT on an ULTRIX system, the installation of DEC VUIT Version 1.0 may not work, or you may not be able to access the online Help, the demo programs, or the Installation Verification Procedure (IVP) after installation. If you experience any of these problems, do one of the following:

- Remove the installation (using the commands *setld -d VIRVUIT100* and *setld -d VIRMAN100*) and reinstall DEC VUIT. Unlike the DEC VUIT T1.0 Field Test Kit, the DEC VUIT Version 1.0 kit cleans up directories appropriately.
- Prior to installing the DEC VUIT Version 1.0 kit, make sure that the following directories have been deleted:

  /usr/lib/vuit
  /usr/examples/vuit
  /usr/lib/X11/help/vuit

™ DEC VUIT is a trademark of Digital Equipment Corporation.

™ VMS is a trademark of Digital Equipment Corporation.

™ ULTRIX is a trademark of Digital Equipment Corporation.

Release Notes Information

The release notes for DEC VUIT Version 1.0 contain known problems, restrictions, and documentation errors.

You can read the release notes before installing DEC VUIT on a VMS system by invoking VMSINSTAL and following the instructions that start the installation procedure.

Following a VMS installation, to read the release notes enter:

```
$  TYPE/PAGE SYS$HELP:VUIT010.RELEASE_NOTES
```

Following an ULTRIX installation, you can print the release notes by entering:

```
#  lp /usr/lib/vuit/vuit100.release_notes
```

Contents of This Kit

The following list details the contents of this kit:

- **Indented Bill Report (BIL) and Bill of Materials (BOM)**

  Please read the BIL and BOM enclosed in this kit and check to see that all items listed are actually in your kit. If your kit is damaged or any items are missing, call your Digital representative.

- **Media**

  If you ordered media, you will find the media and the *DEC VUIT Installation Guide* in this kit. Consult the *DEC VUIT Installation Guide* for information about installing DEC VUIT on your system.

- **Documentation**

  This kit includes copies of the following DEC VUIT documentation:

  DEC VUIT User's Guide
  DEC VUIT Interface Map

  Note that the *DEC VUIT Installation Guide* is included with the media.

- **Software Product Description (SPD)**

  The SPD provides an overview of the DEC VUIT kit and its features.

- **System Support Addendum (SSA)**

  The SSA describes the technical environment in which the product is supported.

- **Software Performance Report (SPR)**

  Use this form to report any problems with DEC VUIT, provided you have purchased warranty services.

A Final Note

Digital prides itself on responding to customer needs. In order to continue serving you, we need your comments. Each manual contains preaddressed, postage-paid Reader's Comments forms at the back. If you find errors in a manual or want to make comments about it, please fill out one of these forms and send it to us.
