VMS Consolidated Software Distribution

Special Notes

November 1992

Additional Product Information

ALL–IN–1 DESKTOP SERVER FOR VMS-Version 1.1

- ALL–IN–1 DESKtop Server for VMS, is the updated product name for ALL–IN–1 PC Server for VMS. The update occurred in Version 1.1.

ALL–IN–1/BRITISH INTEGRATED OFFICE SYSTEM SERVER FOR VMS-Version 3.0

- ALL–IN–1/British Integrated Office System Server for VMS, Version 3.0 is not installable via CDMENU.

  This product may be installed at the DCL prompt using VMSINSTAL and supplying the [A1030_BRITISH.KIT] directory location as the source of the product's kit.

ALL–IN–1 MAIL for VMS-Version 1.1C

- ALL–IN–1 Mail for VMS, V1.1C is a new product name for this version. The old name was ALL–IN–1 Mail (Server) prior to this version.

DEC OPS5 FOR VMS-Version 4.0

- DEC OPS5 for VMS, is the updated product name for VAX OPS5. The update took effect at Version 4.0

DEC TCP/IP SERVICES FOR OPENVMS-Version 2.0

- DEC TCP/IP Services for OpenVMS, is the updated product name for VMS /ULTRIX Connection. The update occurred at Version 2.0.

DEC WANROUTER 100/500-Version 1.0

- DEC WANrouter 100/500, Version 1.0 contains an updated kit. If you originally installed from the November 1991 or January 1992 VMS Consolidated Software Distribution and have not re-installed since, you should reinstall this product.

DEC WANROUTER 100/500 (Frame Relay Data Links)-Version 1.0

- DEC WANrouter 100/500 (Frame Relay Data Links), Version 1.0 contains an updated kit. If you originally installed from the March 1992 VMS Consolidated Software Distribution and have not re-installed since, you should reinstall this product.

DECDECISION/JAPANESE FOR VMS/JAPANESE-Version 1.5A

- DECdecision/Japanese for VMS/Japanese contains two versions of the product on the ConDist; Version 1.1 and Version 1.5A. Version 1.1 provides support for the XUI interface. Version 1.5A provides support for the Motif interface.

  A future release of the product will contain support for both interfaces.

DECIMAGE APPLICATION SERVICES FOR VMS-Version 3.1

- DECimage Application Services for VMS, Version 3.1 contains an updated kit. Please re-install this product if you previously installed from the January 1992 VMS Consolidated Software Distribution.

DECIMAGE EXPRESS FOR VMS (Server)-Version 2.0

- DECimage Express for VMS, Version 2.0 has been updated to include the postscript SPD and SSA.

- Additionally, the DECimage Express for VMS kits are called out as separate entities on ConDist:
  - DECimage Express for VMS (Server)
  - DECimage Express for VMS (Client)
  - DECimage Express for VMS (Development)

  This change allows for the development kit to be installed via CDMENU.

DECNET-VAX Extensions-Version 5.4

- DECnet–VAX (Extensions), Version 5.4 contains an updated kit. Please re-install this product if you previously installed from the November 1991 or January 1992 VMS Consolidated Software Distribution.

DECWINDOWS TOOLS PACKAGE FOR MOTIF ON VMS-Version 1.0

- The DECwindows Tools Package for Motif includes the following 3 products:
  - DEC Visual User Interface Tool (VUIT), Version 2.0
  - LinkWorks Developer's Tools, Version 1.0
  - DECwindows Graphical Interface Tools, Version 1.0
- The above 3 products are not installable via CDMENU, but may be installed in one of two ways:
  1. Install each product from the DCL prompt using VMSINSTAL
  2. Install the DECwindows Tools Package for Motif product via CDMENU. The installation procedure for this product walks through the installation for the above listed products.

DECWRITE FOR VMS-Version 2.0

- DECwrite for VMS, Version 2.0 contains an updated kit. Please re-install this product if you previously installed from the January 1992 VMS Consolidated Software Distribution.

DECWRITE/DEUTSCH FOR VMS-Version 2.0

- DECwrite/Deutsch for VMS, DECwrite/Français for VMS, and DECwrite /Italiano for VMS, V2.0

  The above DECwrite products have been updated for this release due to a problem when installing from the network on a node which is different from the node where the kit resides. This update prevents the installation from failing in the above situation.

  It is only necessary to reinstall this product if you will be using the above scenario.

DECWRITE/JAPANESE FOR VMS/JAPANESE-Version 1.1

- DECwrite/Japanese for VMS/Japanese contains two versions of the product on the ConDist; Version 1.1 and Version 2.0A. Version 1.1 provides support for the XUI interface. Version 2.0A provides support for the Motif interface.

  A future release of the product will contain support for both interfaces.

- VAX Message Router X.400 Gateway, Version 2.2 contains an updated kit. Please re-install this product if you previously installed from the March 1992 VMS Consolidated Software Distribution.

VAX PL/I-Version 3.5

- VAX PL/I, Version 3.5 contains an updated kit. Please re-install this product if you previously installed it from any of the VMS Consolidated Software Distribution offerings.
- This is a cosmetic update since some of the documentation incorrectly stated that this was for internal use only.

VAX SOFTWARE PERFORMANCE MONITOR-Version 3.4

- VAX Software Performance Monitor was removed from VMS ConDist in January 1992. The SPM products have been added back to the VMS ConDist offering beginning in March 1992.
- SPM has been included on the VMS ConDist offering once again as a result of numerous calls from the field regarding the continuing need for this product. The residual demand for this product and its availability on CDROM was stronger than anticipated.
- SPM will not be removed from ConDist until the end of its support period.

VIDA/JAPANESE FOR DB2-Version 1.0

- VIDA/Japanese for DB2, Version 1.0 contains an updated kit which contains modified release notes. Reinstallation of this product is not required.
