OpenVMS VAX Software Compatibility Matrix

REPORT FIELD ABBREVIATIONS AND MEANINGS

- **PACKAGED SOFTWARE - A set of interoperable software products/versions, tested and sold as a single product**
- **OPERATING SYSTEM _SIPS - Operating System products and System Integrated Products shipping as part of the Operating System**
- **LAYERED PRODUCTS - Software products**
- **PRODUCT NAME - Full product name**
- **PRODUCT VERSION - Version, revision and release number a product**
- **OS SUPPORT - Operating system support:**
  - **MIN - Minimum version of the operating system qualified by layered product test**
  - **MAX - Maximum version of the operating system qualified by layered product test**
- **VOLUME SHIP - Planned "First Revenue Ship" date**
- **UPILV - Code to represent a product kit, "Unique Product Identity" plus "Local Language Variant"**
- **DECnet Support - Indicates DECnet features supported by a product**
  - **PH IV - Shows product support for DECnet Phase IV**
  - **OSI w/ Syn - Shows product support for DECnet/OSI longnames with synonyms**
  - **OSI w/o Syn - Shows product support for DECnet/OSI longnames without synonyms**
  - **Y=yes, N=no, X=does not apply, U=unknown**

							DECnet Support
